YOUR JOURNEY THROUGH OUR SOLUTIONS

FULL-SERVICE PROVIDER FOR
THE PARTICLE FOAM TECHNOLOGY

CONSULTING

You have an idea? We have the many years of expertise and consulting skills to implement it in a targeted and customer-oriented way.

DEVELOPMENT

We appreciate tried-and-tested solutions, but we are driven to constantly improve as an innovator and are happy to put our extensive know-how at the service of continuous further development.

MACHINERY SOLUTIONS

Our systems ensure the best possible use of resources, cycle times and energy consumption throughout the entire process chain to guarantee you maximum efficiency.

MOLDS

Our extensive range of highest quality CNC machining centers offers you the option of starting with the initial idea and 3D mold design right through to the complete tooling of your high-performance mold - with test run and supplying sample parts if required.

GLOBAL SERVICES

Our global service team provides the all-round package when it comes to the fast commissioning of your system, the appropriate training, the stocking of necessary spare parts and immediate assistance when it requires technical support. Our numerous service employees know exactly what is important in the event of a breakdown and how to minimize your downtimes. But before this happens, we will work with you to discuss maintenance contracts and advise you on actions that will significantly increase the efficiency of your production processes and ensure your production runs smoothly.

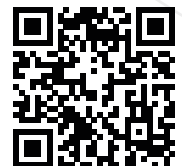

PARTNERSHIP FOR SATISFACTION

Working in partnership with all our partners, especially our customers, is of crucial importance to us. As a member of numerous international organizations and associations, we strive to achieve greater goals together with other companies. We are actively committed to the implementation of joint projects and value all forms of exchange. Our primary goal is to always offer our customers the best possible advice and services.

THE POWER OF EXPERTISE
